Projects

Code Companion - An AI Chatbot | *HTML5, CSS3, Js, NodeJs, Express* | [Github](#) | [Website Link](#)

- Integrated **OpenAI's GPT-3** API to provide more human-like responses to user queries, enabling the chatbot to understand and respond to a wider range of inputs.
- Designed a user-friendly chatbot interface using **HTML** and **CSS**, making it easy for website visitors to interact with the chatbot and get the information they need and used **Javascript** to enable real-time chat functionality and provide a seamless chatbot experience to users.
- Used **OpenAI API's** machine learning capabilities to train the chatbot to improve its responses over time

Sorting Visualizer | *HTML5, CSS3, Js* | [Github](#) | [Website Link](#)

- The project uses **HTML** and **CSS** to create a simple and intuitive user interface.
- Javascript** is used to handle user input, generate random data sets, implement sorting algorithms, and update the visualization in real-time.

Portfolio Website | *HTML5, CSS3, Js* | [Github](#) | [Website Link](#)

- The project uses **HTML** and **CSS** to create the website layout and design, including a responsive grid system and CSS animations.
- Javascript** is used to handle user interactions, such as scrolling, button clicks, and form submissions.
- The website is hosted on a web server, **Vercel**, and can be easily updated and maintained using version control tools, such as **Git**.

Technical Skills

Languages: C/C++, JavaScript

Libraries/Frameworks: Node.js, Express.js

Databases: MySQL, MongoDB

Developer Tools: Git and Github, VS Code, Jupyter Notebook, Postman

Operating System: Linux, Windows

Achievements

- Highest rating of **1223(Pupil)** at **Codeforces**, which is the top site in terms of participation of programmers across globe.
- Ranked under **15%** at **Leetcode** with highest rating of **1696**.
- Highest rating of **1603** and rated **3*** at **Codechef** which ranks among the top sites for competitive programmers.
- Secured a global rank of **2336** in Leetcode's Weekly Contest 326.
- Solved more than 1200+ problems across platforms.
- Qualified Round A of the Google Hash Code 2022.

Extra Curricular Activities

President at Codechef SGGSI&T Chapter

- Successfully organized and managed the **3 National level coding contests** and a **National Level Hackathon**
